

IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF CALIFORNIA

IN RE: CATHODE RAY TUBE (CRT)) MDL No. 1917
ANTITRUST LITIGATION)
) Case No. C-07-5944-SC

This Order Relates To:) SCHEDULING ORDER

ALL ACTIONS)

A trial is currently set in these matters beginning on Monday,
March 9, 2015. Based on the Court's review of the pending
motions, that date is no longer feasible. Accordingly, the trial
date, pre-trial conference, and all outstanding pre-trial deadlines
are hereby VACATED. The deadlines for motions in limine and
Daubert motions set forth in the scheduling stipulation, ECF No.
2459, shall remain in effect.

The Court ORDERS as follows:

- The parties shall appear for a status conference and trial
setting at 10:00 AM in Courtroom 1, 17th Floor, San
Francisco Courthouse on Friday, August 7, 2015. Prior to

the conference the parties shall meet and confer and file no less than one week prior to the conference a joint case management statement outlining the present status of these actions, proposing mutually agreeable trial dates and pre-trial deadlines, and listing the actions requiring remand to their original districts under Lexecon Inc. v. Milberg Weiss Bershad Hynes & Lerach, 523 U.S. 26 (1998), including the case number, judicial district, and (if applicable) division to which the action must be transferred for trial.

- At his convenience, the Special Master shall produce a report and any recommendations necessary regarding the status and/or scheduling of any pending or forthcoming class action settlements requiring the Court's approval.
 - The motion to modify the schedule for pre-trial exchanges, ECF No. 3150, is DENIED as moot. Given the likelihood that circumstances will materially change prior to trial, the motion for separate trials, ECF No. 2897, is DENIED with leave to refile once the status of the actions to be tried is clearer.

IT IS SO ORDERED.

Dated: February 9, 2015
